**RELY® Herbicide**  
**For Weed Control in Grass Grown for Seed Production Only**

EPA Reg. No. 264-652  
SLN. No. OR-000003

## 24(c) Supplemental Label

### FOR DISTRIBUTION AND USE ONLY IN THE STATE OF OREGON

This label and the federal label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, and precautions on this supplemental label and the main EPA-registered label. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**THIS LABEL IS VALID UNTIL DECEMBER 31, 2012 OR UNTIL OTHERWISE AMENDED, WITHDRAWN, CANCELED OR SUSPENDED.**

Bayer CropScience intends that pursuant to this FIFRA Section 24(c) label, this product (Rely® Herbicide) be distributed only to those end users who agree in writing in advance of use to the terms and conditions of Bayer CropScience relating to the use of Rely® Herbicide for this end use. Such terms and conditions include a waiver and release from all liability and indemnification of Bayer CropScience by the user and/or grower for failure to perform and/or crop damage from the use of Rely Herbicide on grass grown for seed production only.

If the preceding terms and conditions are unacceptable, do not open the product. Return the unopened Rely® Herbicide immediately.

This product, when used on grass grown for seed production may lead to crop injury, loss, or damage. Because of the risk of failure to perform or crop damage, all such use is at the user and/or grower's risk. Bayer CropScience recommends that the user and/or grower test this product in order to determine its suitability for such intended use. Bayer CropScience makes this product available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the potential injury associated with the use of this product. The decision to use or not to use this herbicide must be made by each individual user and/or grower on the basis of possible crop injury from Rely® Herbicide, the severity and type of weed infestation, the cost of alternative weed controls, and other factors. Bayer CropScience will not be responsible for crop injury from tank mixtures of Rely® Herbicide with other herbicides or adjuvants to grasses grown for seed production.

## RELY® HERBICIDE

ACTIVE INGREDIENT: glufosinate-ammonium*	11.33%**
OTHER INGREDIENTS:	88.67%

\* CAS Number 77182-82-2, Protected by U.S. Patent No. 4,400,196

**TOTAL 100.00%**

\*\*Equivalent to 1.00 pound of active ingredient per U.S. gallon.

## KEEP OUT OF REACH OF CHILDREN

### WARNING — AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.  
(If you do not understand the label, find someone to explain it to you in detail.)

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577

For PRODUCT USE Information Call 1-866-99BAYER (1-866-992-2937)

#### ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not clean equipment or dispose of equipment washwaters in a manner that will contaminate water resources or arable land. Glufosinate-ammonium and its' degradates have those properties normally associated with pesticides that have been detected in groundwater. Use of this product in areas with coarse soils and high water tables may result in groundwater contamination.

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not use this product until you have read the entire label. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

### GENERAL INFORMATION FOR WEED CONTROL IN GRASS GROWN FOR SEED PRODUCTION:

For use on grasses grown for seed production, such as, perennial ryegrass, tall fescue or bentgrass.

Tolerance of grasses to Rely<sup>®</sup> Herbicide is species dependent. Species tolerance in descending order is: 1) perennial ryegrass; 2) tall fescue; 3) bentgrass; 4) fine fescue; and 5) *Poa* species. For example, perennial ryegrass tends to be more tolerant to Rely<sup>®</sup> Herbicide than the *Poa* species.

1. **DO NOT** apply Rely<sup>®</sup> Herbicide when grass grown for seed production is stressed due to drought, heat, frost, flooding, poor fertility, diseases, insects, or other reason.
2. Stunting of grass grown for seed production may occur following application and, in some instance, seed yields may be adversely affected.
3. Do not broadcast apply Rely<sup>®</sup> Herbicide on fine fescue, orchardgrass, or *Poa* species grown for seed. However, directed shielded sprays may be made in fine fescue species, orchard grass and *Poa* species fields grown for seed production.

### WEEDS CONTROLLED OR SUPPRESSED:

*Poa annua*

*Poa trivialis*

Manna Grass

*Bromus* species (suppression only)

### TIMING OF APPLICATION:

For best weed control and crop safety, spray when crop initiates spring regrowth. Apply when grass is in the 4-6 tiller growth stage. DO NOT apply to new seedlings before the third tiller.

### METHOD OF APPLICATION:

#### Broadcast Application

Apply 2½ to 3 pints of Rely Herbicide per acre in a minimum of 20 gallons per acre of water at 30 – 40 psi.

#### Hooded or Shielded Directed Spray

To avoid excessive crop phytotoxicity, use a hooded or shielded sprayer. Apply by directing spray between rows and using shielded directed sprayers to prevent spray contact with crop plants. Adjust shields to prevent spray from contacting the crop.

Apply 4 quarts per acre with shielded directed spray when the weeds are less than 8 inches tall. Apply 6 quarts per acre with shielded directed spray when the weeds are 8 inches or taller.

### RESTRICTIONS TO THE DIRECTIONS FOR USE:

1. **DO NOT** graze in treated areas for one year (365 days) following application.
2. **DO NOT** apply this product aerially.
3. **DO NOT** apply this product through any type of irrigation system.
4. **DO NOT** allow product to drift off the intended field of grass grown for seed production. Drift control is the responsibility of the applicator. Refer to local state laws, regulations, and guidelines for proper application to avoid off-target movement.

*As with any crop-protection product, always read and follow label directions.
