Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

* Refer to the General Information section of this label.

Follow all applicable directions, restrictions, and precautions on this supplemental label and the main EPA-registered label. It is a violation of federal law to use this product in a manner inconsistent with its labeling. This label and the federal label for this product, must be in possession of the user at the time of pesticide application.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes.

This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated crop. Do not apply when bees are actively visiting the crop, cover crop, or weeds blooming in the treated area. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

APPLICATION INSTRUCTIONS

Do not use Supracide 2E on timothy or timothy-alfalfa stands which will be grazed or harvested for feed to cows, pigs, chickens or any other animal which in whole or part will enter the human food chain. This label is only for distribution or use in Malheur and Harney Counties, Oregon.

Timothy or Timothy-Alfalfa Stands

Apply at a rate of 2 pts to 4 pts per acre in a minimum of 10 gallons of water per acre with ground equipment or 2 gallons of water per acre by air to the stubble after cutting.

Chemigation: Do not apply this product through any type of irrigation system.

Bees: This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or broadleaf weeds. Do not apply this product or allow it to drift to blooming alfalfa or broadleaf weeds. Apply as a pre-bloom spray, or control bloom prior to application.

Restrictions: To avoid illegal residues, (1) Do not apply within 21 days of harvest. (2) (No portion of this crop may be used or distributed for feed purposes to any animal which in part or in whole will enter the human food chain in the U.S.A. This restriction pertains to, but is not limited to, green chop, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. (3) Do not apply Supracide 2E at a rate exceeding 4 pints per acre (1 lb. ai/A) per season. (4) Do not use on Timothy grown for seed. (5) Grower shall obtain a signed "Hay Seller and/or Broker Notification and Agreement" form from persons receiving hay, and one copy of the form shall be mailed to ODA by the grower within 7 days of sale and the second copy shall be retained by the grower for a period not less than 2 years.

Certain uses of methidathion may be restricted by a U.S. District Court final order. You may refer to the Oregon Department of Agriculture web site at <http://egov.oregon.gov/ODA/PEST/buffers.shtml> or to <http://www.epa.gov/espp/litstatus/wtc/maps.htm> for information regarding pesticides that may be impacted by the final order "".

HAY SELLER AND/OR BROKER NOTIFICATION AND AGREEMENT

STATEMENT TO BE COMPLETED UPON DELIVERY OF TIMOTHY HAY OR
TIMOTHY-ALFALFA HAY FROM FIELDS TREATED WITH SUPRACIDE® 2E

EPA Reg. No. 10163-236
SLN OR-020018

GROWER STATEMENT

I hereby declare that Timothy or Timothy-alfalfa hay grown in field (s) _____
was treated with Supracide 2E and consequently can not be fed, or sold for the purpose of feeding, to livestock
that will become part of the food chain in the U.S.A.. I agree to notify any buyer/broker or potential
buyer/broker of the above feeding restrictions.

Signed _____ Date _____

HAY SELLER AND/OR BROKER STATEMENT

I hereby acknowledge the Timothy or Timothy-Alfalfa hay described above was received by me on (date)
_____ and the following requirements and restrictions will be observed and followed:

- (1) All hay harvested from fields treated with Supracide 2E or products made from this hay
(example: pellets) shall bear specific and conspicuous labeling on the shipment invoice, bill of
sale, or bill of lading, which forbids the use of the hay as feed for pigs, chickens, cows or horses
for horsemeat or any other animal that will become part of the human food chain in the U.S. A.
- (2) All hay harvested from fields treated with Supracide 2E will be managed in one of the following
ways:
 1. Exported out of the U.S.A.
 2. Fed only to domestic horses not to be used for horsemeat.
 3. Incinerated, buried or composted.

IMPORTANT! This document to remain on file with the grower for a period of not less than two years. Second
copy to also be signed by the broker/buyer and mailed to the Oregon Department of Agriculture by the grower
within 7 days of delivery. Mail to: SLN Registrations, Pesticides Division, Oregon Department of Agriculture
635 Capitol St. NE, Salem OR 97301
