

Section 24(c) Supplemental Label
For use on Meadowfoam

DIMETHOATE 400

EPA Reg. No. 34704-207

EPA SLN No. OR-050020

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF OREGON

This label is valid until December 31, 2013 or until otherwise amended, withdrawn, canceled, or suspended.

ACTIVE INGREDIENT:

Dimethoate (O,O-dimethyl-S-[(methylcarbamoyl) methyl] phosphorodithioate) 43.5%

INERT INGREDIENTS: 56.5%

TOTAL 100.0%

(1 Gallon contains 4.0 pounds of Dimethoate)

This product contains petroleum distillates.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

ENVIRONMENTAL HAZARDS

This pesticide is toxic to wildlife and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning equipment or disposal of wastes.

This pesticide is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Protective information may be obtained from your Agricultural Extension Service.

DIRECTIONS FOR USE

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

This label and the federal label for this product must be in the possession of the user at the time of pesticide application.

Follow all other applicable directions, restrictions, and precautions on the EPA-registered label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATION DIRECTIONS

For control of *Scaptomyza* spp. On Meadowfoam (*Limnanthes* spp.)

Meadowfoam: To control *Scaptomyza* fly on meadowfoam, use 1 pint (0.5 lb. active ingredient) per acre in a minimum of 20 gallons of water for ground applications. Make application based on *Scaptomyza* detection as determined by adult trapping or field inspection for larval damage (peak adult emergence is usually in mid-February in Western Oregon). Do not apply after crop begins to bloom. Aerial application is permitted and must be completed before blooming period.

Special Crop Use Restrictions

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture, and is regulated by the Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed. If the applicator of this pesticide is not the producer, the applicator should provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, should provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed may be used or distributed for food or feed. This restriction pertains to, but is not limited to, green chop, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or re-growth. All seed screenings shall be disposed of in such a manner that screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603057-0535. Additional regulations concerning seed screenings are stated in OAR 603-0570535.

Any seed from the field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."

CAUTION: Certain uses of dimethoate may be restricted by a U.S. District Court final order. You may refer to the Oregon Department of Agriculture web site at <http://oregon.gov/ODA/PEST/buffers.shtml> or to the U.S. EPA web site at <http://www.epa.gov/oppfead1/endanger/litstatus/wtc/uselimitation.htm> for information regarding pesticides that may be impacted by the final order.
