

50 SG Insecticide

EPA SLN No. OR-070023
EPA Reg. No. 71512-10-279

**FOR DISTRIBUTION AND
USE ONLY WITHIN THE
STATE OF OREGON**

Active Ingredient:	By Wt.
*Flonicamid.....	50.0%
Inert Ingredients	50.0%
Total	100.0%

*Contains 0.5 pounds active ingredient per pound of formulated product
U.S. Patent No. 5360806

EMERGENCY CALLS: 800-331-3148

**This label valid until December 31, 2009 or until otherwise amended, withdrawn, canceled, or suspended.
This label and the federal label for this product must be in the possession of the user at the time of pesticide application.
Follow all applicable directions, restrictions and precautions on this Supplemental label and the main EPA-registered label.
It is a violation of federal law to use this product in a manner inconsistent with its labeling.**

Crop	Pest	Rate of Application
Alfalfa Grown for Seed	Lygus Bugs (nymphs and adults)	2.8 oz per acre

Directions for Use:

To control Lygus Bugs, apply Beleaf 50 SG Insecticide at the rate of 2.8 ounces (0.089 lb. active) per acre. Beleaf 50SG Insecticide controls lygus bugs by contact and ingestion provoking rapid and irreversible feeding cessation. Insects could remain on the plant until they desiccate. In certain situations, Beleaf 50 SG may have greater efficacy against lygus bug nymphs than adults.

Apply in a minimum of 3 gallons of water per acre by air equipment or in a minimum of 10 gallons of water by ground equipment.

Follow the spray drift reduction advisory on the EPA registered label.

Environmental Hazards:

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

Restrictions / Precautions:

Do not apply more than 2.8 ounces (0.089 lb. active) per acre per application.

Do not make more than 2 applications in a crop year.

Do not apply more than 5.6 ounces (0.178 lb. active) per acre per season. Allow a minimum of 7 days between applications.

Rotational crops may be planted no sooner than 30 days after last application.

Special Crop Use Restrictions

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a nonfeed/non-food use by the Oregon Department of Agriculture, and is regulated by Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed. If the applicator of this pesticide is not the producer, the applicator should provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, should provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed crop may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to: green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that the screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form, may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."

FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS, WORKER PROTECTION STANDARD REQUIREMENTS AND PRECAUTIONS ON THE EPA REGISTERED LABEL.

THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION.
