EPA REG. NO. 400-104 EPA SLN NO. OR-080017

COMPOSITION

Active Ingredients: (% by weight)	
Propargite (Sulfurous acid, 2-[4-(1,1-dimethyl-ethyl) phenoxy] cyclohexyl-2-propynyl ester)*	73.6%
Other Ingredients	26.4%
Total:	100.0%

*Contains 6.55 lbs. active ingredient per gallon

**KEEP OUT OF REACH OF CHILDREN
DANGER • PELIGRO**

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates and may cause reproductive effects in wildlife. Do not apply directly to water or areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

CLOVER SEED GROWN FOR SEED PURPOSES ONLY

For the control of the two-spotted spider mite.

For ground applications use 2 to 3 pints of COMITE in 25 to 40 gallons of water per acre. For air applications use 2 to 3 pints of COMITE in a minimum of 10 gallons of water per acre.

NOTE: Observe an REI of 9 days.

Do not make more than two applications per season.

The feeding of treated foliage, clover trash, or seed screenings to livestock and the grazing of treated fields is prohibited.

CARROTS GROWN FOR SEED PURPOSES ONLY

For the control of the two-spotted spider mite.

For air applications use 2 to 3 pints of COMITE in a minimum of 10 gallons of water per acre. Start applications as soon as mites appear.

NOTE: Observe an REI of 2 days.

Do not make more than two applications per season.

Hand harvesting is prohibited until 13 days after application.

(continued on back)

THIS LABEL IS IN ADDITION TO THE STANDARD FEDERAL LABEL PRINTED ON THE CONTAINER

Follow all applicable directions, restrictions, and precautions on the EPA registered label.

This label must be in the possession of the user at the time of the pesticide application.

SPECIAL CROP USE RESTRICTIONS

The pesticide applicator, the producer of the crop, and the seed conditioner must be aware that use of this product according to this labeling is deemed a non-feed/non-food use by the Oregon Department of Agriculture, and is regulated by Oregon Administrative Rule (OAR) 603-057-0535, Pesticide Use On Crops Grown For Seed. If the applicator of this pesticide is not the producer, the applicator should provide a copy of this labeling to the producer of the crop. Producers of this crop who use this product, or cause the product to be used on a field they operate, must provide a copy of this pesticide label to the seed conditioner.

This pesticide does not have an established pesticide residue tolerance for this crop. Consequently, no portion of this seed crop may be used or distributed for food or feed for 1 year (365 days) after the last application of this product. This restriction pertains to, but is not limited to: green chop, forage, hay, pellets, meal, whole seed, cracked seed, straw, roots, bulbs, foliage or seed screenings, and to the grazing of the crop field, stubble or regrowth. All seed screenings shall be disposed of in such a manner that the screenings cannot be distributed or used for food or feed purposes, as indicated in OAR 603-057-0535. Additional regulations concerning seed screenings are stated in OAR 603-057-0535.

Any seed from a field treated with this pesticide product shall bear specific and conspicuous container labeling, or if shipped in bulk, on the shipment invoice or bill of lading. The labeling shall contain the following statement:

"This seed was produced using one or more products for which the United States Environmental Protection Agency has not established pesticide residue tolerances. This seed, in whole, as sprouts, or in any form, may not be used for human consumption or animal feed. Failure to comply with this condition may violate requirements of the Federal Food and Drug Administration, the Oregon Department of Agriculture and other regulatory agencies."

RESTRICTIONS/PRECAUTIONS

- All clover and carrot seed grown or conditioned as a non- food or non-feed site in the state of Oregon shall bear a tag or container label which forbids the use of seed for human consumption or animal food. It shall be the grower's responsibility to notify the processing plants of any seed crop treated with COMITE.
- No clover or carrot seed grown or conditioned as a non-food or non-feed site in the state of Oregon may be distributed for human consumption or animal feed.
- See product Federal label and follow all directions, including any directions for use of buffers.
- You may contact the Oregon Department of Fish & Wildlife, National Marine Fisheries Service or US Fish & Wildlife Service for information on listed threatened or endangered species.
- For propargite uses that are not restricted by a U.S. District Court final order, do not apply by ground application equipment within 50 feet or by aerial applicaion within 75 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds: estuaries and commercial fish farm ponds.
- Certain uses of propargite may be restricted by a U.S. District Court final order. You may refer to the Oregon Department of Agriculture website at <http://egov.oregon.gov/ODA/PEST/buffers.shtml> or to <http://www.epa.gov/espp.litstatus/wtc/maps.htm> for information regarding pesticides that may be impacted by the final order.

**Follow all applicable directions, restrictions, and precautions on the EPA registered label.
This label must be in the possession of the user at the time of the pesticide application.**
