**MAGNACIDE® H Herbicide**

EPA Reg. No.: 10707-9; EPA SLN No.: OR-910018

**This label is valid until December 31, 2009 or until otherwise amended, withdrawn, canceled, or suspended.**

**FOR CONTROL OF CERTAIN WEEDS IN IRRIGATION RESERVOIRS**

<b>ACTIVE INGREDIENT:</b>	<b>BY WEIGHT</b>
Acrolein .....	95%
<b>INERT INGREDIENTS</b> .....	<u>5%</u>
	<b>TOTAL</b> 100%

This product contains the toxic inert ingredient hydroquinone.  
(MAGNACIDE H Herbicide contains 6.7 pounds of active ingredient per gallon)

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Fish, shrimp and crabs will be killed at application rates recommended. Do not apply where they are important resources. Do not apply to water drainage areas where runoff or flooding will contaminate ponds, lakes, streams, tidal marshes and estuaries. Do not contaminate water by cleaning of equipment or disposal of wastes. Notify your State Fish and Game Agency before applying this product. Use only as specified. Contact EPA Region 10 or the Oregon Department of Environmental Quality to determine if any permits prior to application are required.

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This label and the federal label for this product must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, and precautions on this Supplemental label, the main EPA-registered label, and the MAGNACIDE H Herbicide Application and Safety Manual.

Dosage and application rates will be determined by several factors, including (but not limited to) weed growth conditions (type, amount, and size) and water conditions (temperature and rate of flow). Refer to the MAGNACIDE H Herbicide Application and Safety Manual for specific calculation and application directions.

Location:	Statewide.
Site:	Irrigation reservoir.
Target Pest/Problem:	Algae and weeds listed on the registered label.
Maximum Dosage:	Do not exceed 15 ppm concentration in water.
Method of Application:	Ground application.
Frequency/Timing of Application:	As needed.
Other Requirements:	For use only by certified applicators or under their direct supervision. See additional Restrictions below.

## **RESTRICTIONS**

- Do not permit dairy animals to drink treated water.
- Do not use where waters will flow into potential sources of drinking water.
- Water treated with MAGNACIDE H Herbicide must be used for irrigation of fields, either crop bearing, fallow or pasture, where the treated water remains on the field OR
- Held for 6 days before being released into fish bearing waters or where it will drain into them.

Annual training on the use of the product is required. All professional training in the use of the equipment and chemical will be the responsibility of the supplier (Baker Petrolite Corporation).
