**ALIETTE® WDG Fungicide**  
**For use as a Pea Seed Treatment for Control**  
**of Downy Mildew**

**EPA Reg. No. 264-516**

**SLN. No. WA-020030**

## *24(c) Supplemental Label*

### FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

**This label for ALIETTE® WDG Fungicide expires and must not be distributed or used in accordance with this SLN registration after December 31, 2012.**

#### **DIRECTIONS FOR USE**

- Crop/Site:** Succulent, shelled pea varieties – Seed treatment use
- Target Pest:** Downy Mildew (*Peronospora viciae*)
- Rate:** 0.1875 lbs (3 oz) of ALIETTE® WDG per 100 lbs of seed
- Method of Application:** Seed treatment: Treat peas using a slurry of fungicides at the rate of 7.7 fluid ounces of slurry per 100 pounds of seed. Maintain continuous agitation of slurry during application.
- Allow treated seeds to dry thoroughly before packaging or planting.
- Use Restrictions:** Maximum of 1 application to pea seeds.
- For use by commercial seed treaters.
- Do not use treated seed for any other purpose than planting.
- An EPA-approved dye (e.g., 40 CFR 180.1001) which imparts an unnatural color to the seed, must be applied to treated seed because ALIETTE® WDG Fungicide is manufactured without a dye.
- Labeling:** Federal law requires that bags containing treated seeds must be labeled with the following information: "This seed has been treated with ALIETTE® WDG Fungicide. Do not use for feed, food, or oil purposes. Store away from feed and foodstuffs."

**Environmental Hazards**

This product is toxic to aquatic and estuarine invertebrates. Aliette WDG Fungicide should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program web site at <http://agr.wa.gov/PestFert/EnvResources/EndangSpecies.htm> , or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information regarding aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

**WSDA Container Disposal Guidance**

Completely empty the contents of the pesticide container into application equipment, and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.
