## RELY® Herbicide

**For Stand Suppression of Kentucky Bluegrass Grown for Seed and Weeds During a Fallow Year.**

EPA Reg. No. 264-652

EPA SLN. No. WA-050001

## *24(c) Supplemental Label*

### **FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON**

Bayer CropScience intends that pursuant to this FIFRA Section 24(c) label, this product (Rely® Herbicide) be distributed only to those end users who agree in writing in advance of use to the terms and conditions of Bayer CropScience relating to the use of Rely® Herbicide for this end use. Such terms and conditions include a waiver and release from all liability and indemnification of Bayer CropScience by the user and/or grower for failure to perform and/or crop damage from the use of Rely Herbicide on grass grown for seed production only.

If the preceding terms and conditions are unacceptable, do not open the product. Return the unopened Rely® Herbicide immediately.

This product, when used on grass grown for seed production may lead to crop injury, loss, or damage. Because of the risk of failure to perform or crop damage, all such use is at the user and/or grower's risk. Bayer CropScience recommends that the user and/or grower test this product in order to determine its suitability for such intended use. Bayer CropScience makes this product available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the potential injury associated with the use of this product. The decision to use or not to use this herbicide must be made by each individual user and/or grower on the basis of possible crop injury from Rely® Herbicide. Bayer CropScience will not be responsible for crop injury from tank mixtures of Rely® Herbicide with other herbicides or adjuvants to grasses grown for seed production.

This label for Rely Herbicide expires and must not be distributed or used in accordance with this SLN registration after December 31, 2009.

#### **DIRECTIONS FOR USE**

This label and the federal label for this product must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label. It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not use this product until you have read the entire label. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

#### **GENERAL INFORMATION FOR STAND SUPPRESSION OF KENTUCKY BLUEGRASS GROWN FOR SEED PRODUCTION**

For use on Kentucky bluegrass grown for seed to suppress growth and control weeds **during a fallow year.**

**DO NOT** apply Rely® Herbicide to Kentucky bluegrass in the year that seed is to be harvested.

**WSDA Container Disposal Guidance:** Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the internet from WSU at <http://pep.wsu.edu/waste/wd.html> or from WSDA at <http://agr.wa.gov/PestFert/Pesticides/WastePesticide.htm>. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.

Weeds Controlled or Suppressed	Broadcast Application	Application Timing
<i>Poa annua</i> <i>Poa trivialis</i> Manna Grass <i>Bromus</i> species (suppression only)	2 ½ - 3 ½ p/A Minimum of 20 gallons/A of water at 30-40 psi.	Apply Rely® Herbicide during the spring of the fallow year after the bluegrass has resumed active growth but before stem elongation occurs. DO NOT apply after stem elongation has begun.
<p><b>Notes and Restrictions</b></p> <p><b>DO NOT</b> feed or graze grass or cut forage or hay in treated areas for one year (365 days) following application.</p> <p><b>DO NOT</b> apply this product aerially.</p> <p><b>DO NOT</b> apply this product through any type of irrigation system.</p> <p><b>DO NOT</b> allow product to drift off the intended field of grass grown for seed production. Drift control is the responsibility of the applicator. Refer to local state laws, regulations, and guidelines for proper application to avoid off-target movement.</p>		

## ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not clean equipment or dispose of equipment washwaters in a manner that will contaminate water resources or arable land. Glufosinate-ammonium and its degradates have those properties normally associated with pesticides that have been detected in groundwater. Use of this product in areas with coarse soils and high water tables may result in groundwater contamination.
