

Outlook[®]

herbicide

Supplemental Label

EPA Reg. No. 7969-156

EPA SLN: WA-060006

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON

FOR WEED CONTROL IN FOREST TREE NURSERIES, ON SEEDLINGS
(PROPAGATIVE MATERIAL) OF CERTAIN CONIFER SPECIES INCLUDING
DOUGLAS FIR, WESTERN HEMLOCK AND WESTERN RED CEDAR

This label for Outlook[®] herbicide expires and must not be distributed or used in accordance with this FIFRA 24(c) Special Local Need registration after December 31, 2011.

Outlook[®] herbicide contains 6.0 pounds of active ingredient (dimethenamid-P) per gallon.

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.

This labeling must be in the possession of the user at the time of application.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Read the **Precautionary Statement, Environmental Hazards, Storage and Disposal** statements, and **Conditions of Sale and Warranty** statement appearing on the container label.

GENERAL INFORMATION

Outlook may be used as part of a weed management program in Forest Tree Nurseries. When applied as directed, Outlook will provide soil residual control of annual grasses, annual broadleaf weeds, and sedges. See **Table 1** of EPA-approved main label for Outlook for complete list of weeds controlled.

Outlook will not control weeds that have emerged from soil. Application must be made to clean-tilled soil before weeds emerge from soil

or in a program with other herbicides that control emerged weeds.

APPLICATION INFORMATION

Method:

Outlook may only be applied by **ground (broadcast) applications**. Refer to EPA-approved main label for Outlook for specific instructions for application methods.

Timing:

Pre-emergence applications of Outlook may only be applied in transplant nursery beds. **DO NOT** apply to forest tree seedbeds.

Apply Outlook after dormant trees have been transplanted for at least 3 days and prior to weed emergence and bud break of trees.

Rates:

Apply Outlook at 21 fluid ounces per acre.

Outlook may only be applied in a single application.

Not all forest tree species or cultivars of species have been tested for plant safety. It is advised to test a small number of plants at the recommended rate and evaluate for suitability and crop safety prior to broad-scale applications.

ENDANGERED PLANT SPECIES

Use low pressure nozzles according to the manufacturer's specifications that produce only medium to coarse or very coarse droplets **AND** leave a 35 foot untreated buffer between treatment area and endangered plant populations.

PRECAUTIONS AND LIMITATIONS

DO NOT apply by air or through any type of irrigation system.

DO NOT apply more than 21 fluid ounces of **Outlook® herbicide** per acre, per season.

Refer to EPA-approved main label for all other **Restrictions and Limitations**.

CONTAINER DISPOSAL

WSDA Container Disposal Guidance:

Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the internet from WSU at:

<http://pep.wsu.edu/waste/wd.html>

or from WSDA at:

<http://agr.wa.gov//PestFert/Pesticides/WastePesticide.htm>.

Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county.

Burning is not a legal method of container disposal in Washington.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflects the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. All such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT PERMITTED BY LAW, BASF OR THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
