FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF **WASHINGTON**

ASSAIL[®] 70WP INSECTICIDE

FOR USE ON ALFALFA GROWN FOR SEED

This label for ASSAIL 70 WP Insecticide expires and must not be distributed or used in accordance with this SLN registration after December 31, 2011.

EPA Reg. No. 8033-23-70506

EPA SLN No. WA – 070006c

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on this supplemental label and the main EPA registered label.

Spray volume: Apply in a minimum finished spray volume of 20 gallons per acre by ground and 10 gallons per acre by air. To achieve optimum pest control, it is important to obtain thorough and uniform spray coverage.

USE	RATE/ACRE	SPECIFIC DIRECTIONS
Lygus Bugs	1.1 – 1.7 oz (0.05 – 0.075 lb ai)	Begin application when treatment thresholds have been reached. Use the high rate under heavy insect pressure and for longer residual control. <ul style="list-style-type: none">Do not make more than 4 applications per season.Do not apply more than once every 7 days.Do not exceed a total of 0.3 lbs. active ingredient (6.8 ozs product) per acre per season.

RESTRICTIONS / PRECAUTIONS:

All alfalfa seed screenings shall be disposed of in such a way that they cannot be distributed or used for human food or animal feed. The seed conditioner shall keep records of seed screening disposal for three years from the date of disposal and shall furnish the records to the director immediately upon request. Conditioner disposal records shall consist of documentation of on-farm disposal, disposal at a controlled dumpsite, incinerator, composter, or other equivalent disposal site and shall include the lot numbers, amount of material disposed of, the grower(s), and the date of disposal.

No portion of the alfalfa seed plant, including but not limited to green chop, hay, pellets, meal, whole seed, cracked seed, roots, bulbs, leaves, and seed screenings may be used or distributed for food or feed purposes.

Alfalfa seed shall bear a tag or container label that forbids use of the seed for human consumption or animal feed.

Special Local Need

Alfalfa seed may not be distributed for human consumption or animal feed.

For use under this SLN label, do not apply this product through any type of irrigation system.

Pollinator Protection Requirements: This product is toxic to bees exposed to direct treatment. Do not apply this product to blooming alfalfa grown for seed while bees are actively visiting the treatment area. When alfalfa grown for seed is blooming apply this product between late evening and early morning only (between 6 PM and 7 AM).

Pollinator Protection Requirements (Walla Walla County only): This product is toxic to bees exposed to direct treatment. Do not apply this product to blooming alfalfa grown for seed while bees are actively visiting the treatment area. When alfalfa grown for seed is blooming apply this product in late evening only (between 6 PM and midnight).

RESISTANCE MANAGEMENT:

Acetamiprid is the active ingredient in ASSAIL[®] 70WP Insecticide. It is a member of a class of chemicals known as neonicotinoids. Rotating ASSAIL[®] 70WP Insecticide with pesticides with different modes of action may delay or prevent development of insecticide resistance. The use of ASSAIL[®] 70WP Insecticide should conform to resistance management strategies established for the use area. Consult your agricultural advisor, university contact or extension service for recommended pest management practices for your area. Use recommended integrated pest management practices so that you are not relying solely on chemical control in your crop production.

WSDA Container Disposal Guidance:

Completely empty the contents of the pesticide container into application equipment, and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.
