ROVRAL® brand 4 Flowable Fungicide
For Use on Seed Peas
(For Export to Sweden Only)
EPA Reg. No. 264-482
EPA SLN. No. WA-930026

24(c) Supplemental Label

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF WASHINGTON **FOR USE ON SEEDS TO BE EXPORTED TO SWEDEN ONLY**

This label for ROVRAL® brand 4 Flowable Fungicide expires and must not be distributed or used in accordance with this SLN registration after December 31, 2009.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

CROP	INSECT	RATE	REMARKS
Peas grown for seed (exported to Sweden only)	<i>Ascochyta Blight</i> (<i>Ascochyta rabiei</i>)	5.6 fl oz / CWT	Apply ROVRAL® brand 4 Flowable Fungicide with enough water to insure complete coating of the seed. Allow the treated seeds to dry thoroughly before packaging.

RESTRICTIONS:

- Do not apply more than 1 application to seed peas.
- Do not use treated seed for any other purpose than planting.
- Since this product does not contain a dye, all seed treated with this product must be colored with an EPA approved dye (e.g. 40 CFR 180.1001) which imparts an unnatural color to the seed to help prevent the inadvertent use of treated seed for food, feed, or oil purposes.
- If applying this product adjacent to a water body such as a lake, reservoir, river, permanent stream, marsh or natural pond, estuary, or commercial fishpond, there must be at least a 25-foot buffer strip between the water body and the point of application.

This pesticide is toxic to invertebrates. ROVRAL® brand 4 flowable Fungicide should not be used under this SLN label where impact on listed threatened or endangered species is likely. You may refer to the WSDA Endangered Species Program website at <http://agr.wa.gov/PestFert/EnvResources/EndangSpecies.htm>, or contact the Washington Department of Fish & Wildlife, National Marine Fisheries Service (NOAA Fisheries) or US Fish & Wildlife Service for information aquatic species listed as threatened or endangered. Consult the federal label for additional restrictions and precautions to protect aquatic organisms.

Seed Labeling:

Treated seed must be labeled: ***"For Export to Sweden Only – Not to be sold or offered for sale in the United States"***
"Seed Treated with Iprodione (Rovral) - Do Not Use for Food or Feed Purposes."

Container Disposal Guidance: Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the internet from WSU at <http://pep.wsu.edu/waste/wd.html> or from WSDA at <http://agr.wa.gov/PestFert/Pesticides/WastePesticide.htm>. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.
